EXPERIENCE

Software Engineer

Wasmer

Feb 2023 - May 2024 | Silicon Valley (Remote)

- Spearheaded the research, design, and management of software programs, enhancing performance and reliability.
- Directed software programming and documentation development, ensuring clarity and usability.
- Redesigned the wasmer.io platform from scratch, enhancing user experience and system performance.
- Upgraded the code dependencies and migrated the platform to be deployed on the edge, reducing latency and improving load times

Software Engineer

MaxAB

Sep 2021 - Jul 2022 | Casablanca

- Collaborated with the Product team and Engineers to address design and business requirements.
- Successfully delivered several key projects on schedule, converting UI mockups into functional code.

FullStack Developer

WaysToCap (YC W17)

Feb 2020 - Aug 2021 | Casablanca

- Implemented new features in collaboration with product managers, UI/UX experts, and fellow engineers.
- Consolidated the existing codebase, fixing bugs and ensuring project quality.
- Enhanced system performance and user experience, resulting in a 22% increase in user satisfaction and a 30% boost in sales.

Software developer

Freelance

2018 - Present

Worked with people from multiple backgrounds in translating UI design into code and creating fast and secure APIs.

EDUCATION
